SARCASTIC SEQUOIA

Please avoid leaving trash on the ground after you finish eating.

The only places where it is okay to eat are under the solar panels and in the cafeteria. The yard duties will give punishments for eating past the cones.

According to scientists, littering in school grounds can lead to waste accumulating in places like playgrounds or sports fields. Trash can end up in local water sources, affecting the broader environment. Teaching students not to litter helps instill environmental awareness.

DON'T LITTER ANYWHERE

What's your favorite season?

Sarean Pera: Fall because its my birthday

Aliyah Rivear: Fall because I like the cool weather

Charlotte Johnson: Summer because theres no school

Jo Owens: Summer because I get to go swimming

Ms Horne: Fall because I love the cool weather all the leaves change and fall sailing
