Tragic Day at Sequoia Middle School. Kids Forced to Leave School for Summer Break.

On the last day of school students shocked their teachers by not wanting to leave school. Instead of running out of school happy for summer break many kids wished school could last all year.

“I was really hoping for one last test.”
Said Timmy as he was uncontrollably sobbing.

The teachers were confused when the students were giving their textbooks a final hug and asking for more homework over summer break. Some kids cried of the thought of no more early mornings of long class periods.
