Homework on the weekends?

Ranna Shahid

"I would be sooo upset"

Many think that it is important to take a break from work, including Ranna Shahid, Kainoa Noriega, Mr. Haupt, and Jocelyn Castaneda. They say "No," to having assignments during a time when you should have a break and be resting. In agreement, I think it is odd to be assigned homework on a weekend (which is given as a rest day). Mr. Haupt beleives that students should have breaks and should have a life outside of school. I agree! I think it takes away from socializing outside of the educational premises.

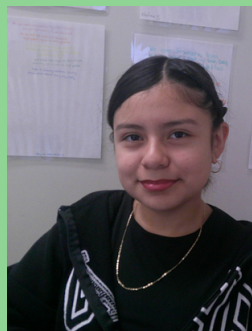

Kainoa Noriega

"They will feel my wrath if they give me homework on the weekend!"

Mr. Haupt

"Go live your life, you don't need homework!"

Jocelyn Castaneda

"Heck no!"
