Opinion Column

Substitute teachers shouldn't be treated differently!

One of the major problems substitute teachers face when entering a new class is students being way too loud and obnoxious. Many students have noticed this like Braden Soown, who said, "I don't think they treat them as well as actual teachers." Substitute teachers should be treated like any other teacher.

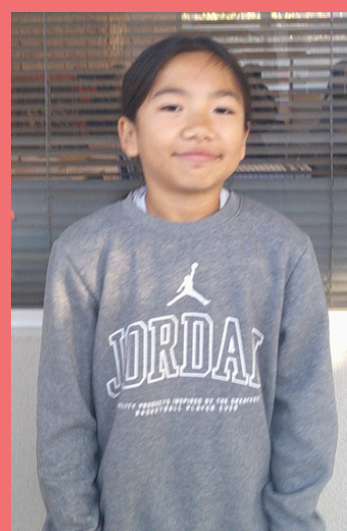

Isabella Sarcos

"Depending what teacher it is they can treat them good or bad"

Braden Soown

"I don't think they treat them as well as actual teachers"

Kara Diwa

"They definitely treat them differently"

Sebastian Paradiso

"Different than the normal teacher cause they pay less attention"
