Opinion Column

**“Bagels are better then
crossiants!”**

I believe that bagels are way better the croissants I think this because you can put many things on bagels ,

while

croissants are usally always eaten plain. Even with

a plain bagel the taste is overall just better then croissants Also, bagels are way more filling then crossiants are. Therefore bagels are better then croissants.

Bagels because I love to pair

it with cream chease and its savery.- “
