## COLUMN

Along with hygiene, comfort matters too. You'd do so much better running miles in sweatpants or shorts instead of jeans.

Doing PE is so much more easier and efficient when wearing PE clothes.

### Are PE Clothes Necessary?

Yes! Something I think students don't understand is that the reason schools make you have PE clothes is for hygiene and comfort purposes, not because they want you to wear something "stupid." Especially in middle school, sweat tends to STINK. And that odor gets onto the clothes you wear when you run! THAT'S why we change; when we get to our next classes, we won't come in stinky and sweaty.

Plus, you're only going to be wearing those uniforms for one period, and there's nothing to be ashamed of because everyone else's wearing them!
