Student Quotes!

(In order)

“I chose the it because I
grew up with it”
-Deinelle Punzalan

“I chose it because I like
the songs”
-Charlotte Shirley

“I picked it because they
are green”
-Jacob Manzon

“I don't know why I picked
it. It was random.”
-Bella Solis

In my opinion, the story is about some creatures called Sneetches. Some of them have stars on their bellies and some do not. The ones with stars think they are better and more important. They do not play with the ones without stars and they treat them like they are not good enough

Then a man comes and puts stars on the other Sneetches, but later he removes them and mixes everything. At the end, nobody knows who had a star before. They learn that having a star does not make someone better.

I think this story teaches us that we should not judge people by how they look. Everyone is the same inside. It made me think that we need to be kind and not exclude others.

Aiden- he's the best because he was my childhood author. my favorite book is green eggs and ham.

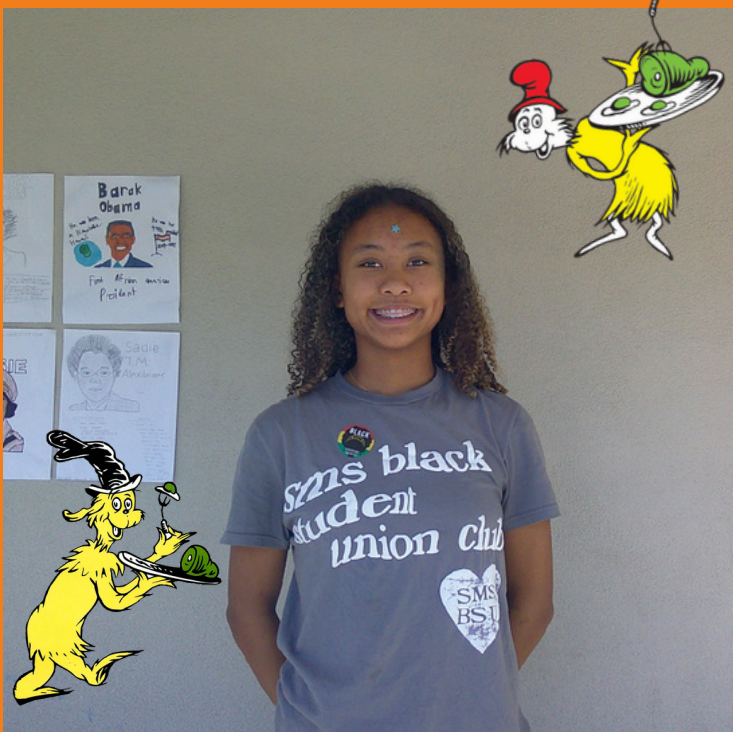

kaiya- he is very creative and I've known his books since was 3 years old.

Ariel- I love his childrens boks and it fills me with joy.
